

Greetings

Welcome to August! The final few weeks of summer are here, and the countdown is on to the start of the school year. We are so excited to see how God will move during this next school year, and cannot wait to hear stories of how your students engage in learning throughout the upcoming school year. Our team is here for you if you have any questions or feedback that you would like to share. You can reach us by emailing info@portalsacademy.com or by calling (612) 356-7376.

-Your Portals Team

Lesson Plans Available Now!

We are so excited to announce that the first month of lesson plans are available now! Families and schools who have registered for the 2023-24 school year received an email from info@portalsacademy.com with instructions on how to set up lesson plan delivery preferences. Educators will be able to decide how often and when they want to begin receiving lesson plans. They may also set dates to pause and resume lesson plan delivery for vacations or breaks in the school year.

Going with your own Bible curriculum? You will also be able to select which, if not all, subject areas you want to receive in your lesson plans.

Note from Dr. Dijkers

As you are preparing for the school year, reading through lesson plans, completing professional development training, or just browsing the website, please let us know if you have any feedback or questions. Portals is a new organization, and we are committed to our mission of offering families an affordable and quality private Christian education. You are a critical part of helping to advance our mission, and your grace and kindness are appreciated as we constantly seek to improve systems and the support we offer.

Professional Development Update

We are currently filming professional development training videos that will be available mid August for families and schools who have registered for the upcoming school year. Keep an eye out in your inbox for more information on when these videos will be available.
