

New Portals Newsletter

We have a few months until we start the next school year and we didn't want to wait that long! Every other week, we will be sharing progress and keep you posted on any summer opportunities for your families. So this is our first of many newsletters to keep you in the loop.

Homeschool Conferences

This spring, Portals Academy has attended multiple Christian home education conferences across the Midwest - where we met a number of you! We are thrilled to see how God is working among your families, church leaders, and Christian School administrators. God is clearly moving among his people!

So far we have been to CHEW, Wisconsin, CHCSD, South Dakota, and MACHE, Minnesota. Next weekend, we'll be at the Homeschool Iowa Conference in West Des Moines. If you, or someone you know, is in the area, we would love to see you.

New Partnerships

This month has been outstanding as we add elements to Portals from each of these new friends:

- Trail Life USA
- SpellUSee - Demme Supplementals
- Nebraska Scientific
- LDHope.org
- Answers in Genesis
- PragerU
- American Cornerstone Institute
- WI Christian News
- Inspired Evidence

Lesson Plan Development

Our team of educators have been hard at work designing for you. We are currently 50% done with lesson plans, questions, and projects for 2023-2024, and are on pace to have all lessons completed by August. Enjoy your summer while our team gets you prepped and ready!

June 2023

NEW Introductory Video

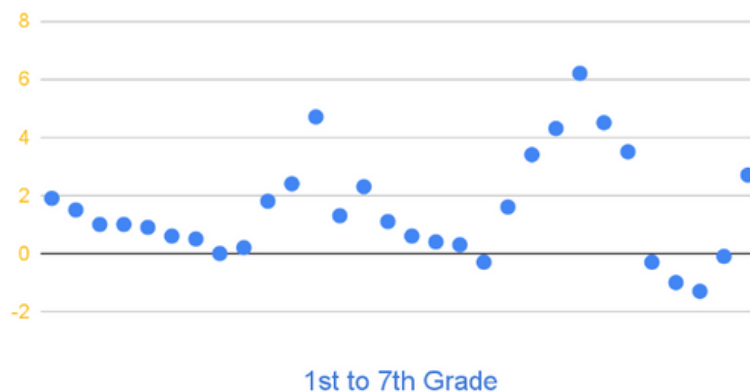

Check out our new [introduction video](#)! This is a great resource to use when sharing Portals Academy with other families or churches in your community. The video has already been shared with a network of 3000+ pastors and missionary organizations. Help us continue to spread the word!

Pilot Year for Portals

Look for the new [testimonials page](#) under "About" on the website and you can read for yourselves the feedback we have been hearing after the pilot year. We also gathered test data, look below for summative results. For the students below the line, parents reported gains from their previous years in government schooling. Students overall saw large gains in reading!

Did Portals students grow this year?

Distance from Grade Level Expectation

On average students scored 1 grade above their test level
